

draw_diagram

March 21, 2022

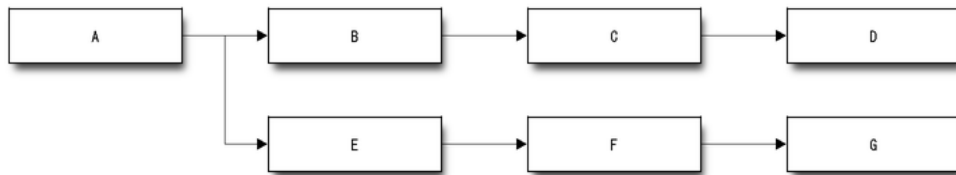

1 Display a diagram with blockdiag

`blockdiag` is module which plots diagrams.

```
[1]: from pyensae.graphhelper import draw_diagram
```

```
[2]: img = draw_diagram("""
    blockdiag {
        A -> B -> C -> D;
        A -> E -> F -> G;
    }
    """)
img
```

[2]:

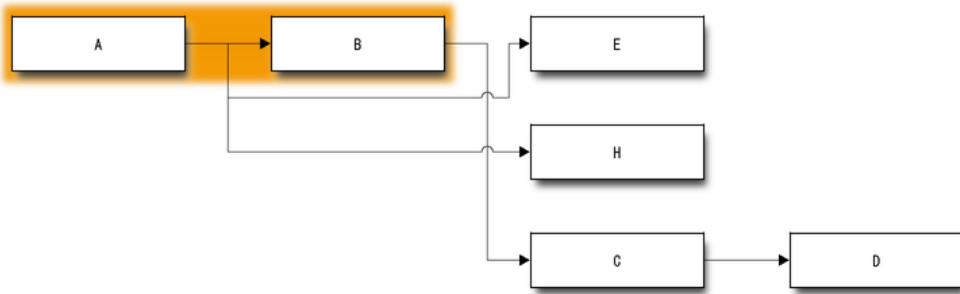

The page [blockdiag - simple block-diagram image generator](#) explains the syntax used to describe a graph.

```
[3]: draw_diagram("""
    blockdiag admin {
        A -> B -> C -> D;
        A -> E;
        A -> H;

        // A and B belong to first group.
        group {
            A; B;
        }
    }
    """)
```
