## 1 Test a slide show (start a slide)

A notebook with instructions to defines slides and animation.

- continue with some bullets
- and another one

```
[1]: "let's see"
```

```
[1]: "let's see"
```

A sub slide  
with some code

```
[2]: def add(a,b):  
      return a+b  
      add(4,5)
```

```
[2]: 9
```

### 1.1 Final slide in a title

The following is a fragment with an image.

```
[3]:
```
